

Goals for This Year

I would like to learn more about health this year. I would like to learn what foods to eat. I would like to learn how to speak out in front of my peers, because I'm always afraid. In high school I would like to try harder and let God help me try harder on my homework. After the four years of high school I would like to work to get a master's degree in college and be a doctor. –Andre T., 9th grade

Career

I would like to be a surgeon so I would operate on people. I feel like I'm caring because I help people when I see them hurting. This quality is important to me to have because doctors help people when they see people hurting. To be a doctor I will have to go to medical school and learn a lot about science. This career is important to me because people are getting hurt and I will like to help them. –Andre T., 9th grade

This year I would like to learn multiplication, space, Vikings and Aztecs. This year I would like to be better at math. I will like to finish high school and college. I like to be a good teacher to help the students to learn. I am a good listener.

To get a good career. –Jaimé F., 5th gr.

My goals for this year are to go to Mexico and see my sister Lili. My second goal is to learn a lot of new things in my school, like math facts and reading. I want to learn to say words correctly.

When I'm in high school I would like to study science because when I grow up I want to be a doctor and help sick people.

After high school I will go to college. Then I will graduate and then I will go to medical school.

–Yulisa R., -6th grade

I would want the career of a doctor. I will help people get better everyday. I will need to pass high school and college. This career is important to me because I want people to live happily, not die. –Elija W., 4th grade

This year I would like to learn about high schools because I am going to high school next year. I also want to learn more about the 50 states and more about high school classes.

I would like to learn to do better this year on vocabulary, reading and other new things.

I would take 4 years of college after high school and take some training of how to be a pilot.

After I graduate from high school I would spent time with my family before going to college. I would also try to have some time on some job while I take college courses.

–Hirut N., 8th gr.

Goals

My goals for this year are to learn geometry and learn how to speak German. Geometry is the shapes and how they are made and how to find their sizes. Germany is in Europe and the people in Germany are just like the people in Illinois. They speak all different kinds of languages. I would like to pursue in a modeling career. I would have to learn better structure and photography and more about lights. I would like to graduate from college with a bachelor and associate degree in modeling. –Jasmine T., 10th gr.

Career

The career I would like to do when I get out of school is modeling. In the career of modeling I model in front of the camera and I walk the runway and it is one way to become famous. The qualities I have to become a model is my height, my weight, and my willingness to be a hard worker at model and what I do., The education I will need to pursue this career is a 4-year college degree—a Bachelor's degree. This career is important to me because I would like to show off my beauty on the outside to other people. It also is a hard but fun career to pursue. I think I would be good at it.

–Jasmine T., 10th gr.

Goals For This Year

I want to learn how to make video games. To make video games I have to learn graphic design. You use computers to make graphic design for games. To learn different stuff like working with variables in algebra.

To learn more about graphing like bar graphs. – Oscar B., 6th gr.

This year I want to read better. I want to get better at math. I also want to be better at soccer. The tutoring program will help me get better at reading and math by practicing more.

After high school I want to be a doctor because I can help people. And I want to be a soccer player because it is fun. – Fredy F., 5th gr.

I want to learn about how the people lived in this world many years ago because I want to know how they lived differently than I do.

So I want to learn about math because I want to get better at math. I need practice with multiplication because it is difficult to do.

I want to finish high school and I want to play soccer at high school. Then I will read a lot of books.

Maybe I will go to college if I go to college I will be a teacher because I am good at helping kids. If I don't go to college I will go to work at a hotel like my father.

– Fredy F., 5th gr.

This year I want to learn to play basketball at school because I think that I will have fun. Playing with my friends and my pals, we would have a lot of fun there.

– Lamarr S., 3rd gr.

Goals

Learn to listen

Come in on time, house

Do better in reading

Learn to respect other people

Choose better friends

Come to tutoring

Come to Girl Scouts, church

After I finish high school I would like to become a teacher.

The career I choose is to become a teacher. I choose that because I believe I could do a good job because I play it with my brothers and sister. It makes me feel like I could really be something. So this tells me I really need to focus in school and come everyday. – Myanna S., 6th gr.

The most thing I would like to learn is how to do integers. I would like to learn how to write essays better such as narrative and expository. The education I would like to pursue is to go to a singing

school. I would like to go to college after I finish high school.

For my career I want to be a singer and a comedian. I would entertain others and make others laugh. The qualities I have that make me suited to be a singer is that I'm very loud and I can be friendly. Also I know how to talk to people. The education and experiences I would need are to take singing lessons, and public speaking, and also financing. I think this career is important because I have been wanting to be a singer ever since I was little.

–Shonesha J., 8th gr.

Once upon a time, a pretty little girl named Alissa came to the library every Wednesday and Thursday to be tutored in her school homework. She was very smart and LOVED her homework!

“I like to learn!” she said each day.

Alissa liked to learn so much, she eventually became the smartest woman in the world!!

Everyone can be like Alissa if they do their homework every day and learn!

Because Alissa was the smartest, prettiest girl in the world, she could do whatever she wanted. She traveled all over and even was a member of the Army! She was respected and everyone liked her.

All because Alissa did her homework in school, she was able to do these things!! – by Leah Zedella,

Tutor of Alissa A., 2nd gr.
